Professional Summary

Client-facing Data & Analytics Consultant with 4+ years of experience bridging **business needs and data solutions**. Skilled at working with stakeholders to define requirements, manage small teams, and deliver automated reporting pipelines and dashboards that improve decision-making. Hands-on expertise in **ETL workflows, BI tools, and data visualization**, with proven success in standardizing processes, ensuring governance, and enabling timely insights for financial and enterprise clients.

Experience

Research Assistant (Part-Time), San Diego State University – San Diego, CA Feb 2025 – Present

- Fine-tuned **LLaMA** with **KBLaM** to build a multilingual, privacy-aware mental health chatbot, grounded in **psychological knowledge triples**.
- Trained **MLP, LSTM**, and **LagMLP** with **temporal attention** on biosignals (PPG, ECG, EDA), achieving **25% MAE reduction**.
- Applied **WGAN** augmentation and **Monte Carlo Dropout** to quantify uncertainty and validated generalization with **LOSO-CV**.

Associate Data Engineer, TresVista Analytics – Pune, India Oct 2023 – Aug 2024

- Directed a **2-person analytics team** supporting **CPPIB (Canada Pension Plan Investment Board)**, delivering automated ETL workflows and reporting dashboards.
- Partnered with stakeholders to define **KPIs, SLAs, and data validation rules**, ensuring reporting accuracy and compliance.
- Engineered **Databricks (PySpark) + Apache Airflow** pipelines to consolidate data from **heterogeneous sources**, reducing ingestion time by **50%**.
- Automated financial model refreshes and reporting with **Python, VBA, Power Automate**, reducing manual effort by **70%**.

Senior Data Engineer, LTMindtree – Pune, India Jul 2020 – Oct 2023

- Served as **Project Lead** for enterprise clients, coordinating backlog planning, delivery governance, and cross-functional collaboration.
- Built and optimized **SAP BODS ETL pipelines** integrating SAP ECC, HANA, SQL Server, and Oracle into a BI warehouse, accelerating delivery by **80%**.
- Automated recurring ETL processes, saving **1.5 FTEs annually** and improving operational reliability.
- Migrated legacy SAP pipelines to **AWS Glue** and designed Oracle-to-Snowflake transfers, achieving **~ 50% cost savings**.
- Administered **SAP BODS environments** (job servers, user roles, patching, compliance, upgrades) under enterprise governance frameworks.

Education

San Diego State University, USA, MS in Data Science (GPA: 4.0/4.0) Aug 2024 – May 2026

IIITDM Jabalpur, India, BTech in Computer Science (GPA: 3.2/4.0) Aug 2016 – May 2020

Projects

Wildfire Risk Prediction in California Jan 2025 - May 2025

- Built a wildfire risk prediction system integrating **satellite detections, NDVI, ERA5 weather, and land cover data**.
- Achieved **71%+ accuracy** using Random Forest and CatBoost; evaluated neural baselines (MLP, FT-Transformer).
- Tools Used: Python, PyTorch, GeoPandas, CatBoost, Google Earth Engine

Medi-vu: Healthcare Access & Disease Analysis Aug 2024 - Dec 2024

- Developed a geospatial tool combining **hospital, Medi-Cal, and disease mortality data** to identify underserved regions.
- Built interactive dashboards with **Tableau and ArcGIS**, revealing disparities in rural healthcare access.
- Tools Used: Tableau, ArcGIS, Python, Excel, Medi-Cal datasets

Technical Skills

Programming: Python, SQL, Java, R, C/C++, VBA

Machine Learning & AI: PyTorch, scikit-learn, Transformers (LLaMA, KBLaM), LSTM, XGBoost, Random Forest, WGAN

Data Engineering & ETL: Databricks (PySpark), Apache Airflow, SAP BODS, AWS Glue, Tidal Automation

Cloud & Databases: AWS (S3, Glue, Redshift, EC2, Athena, DynamoDB, RDS, SQS, SNS, CloudWatch), PostgreSQL, MySQL, Oracle, SQL Server, Snowflake, MongoDB, Firebase

Visualization & Reporting: Tableau, Power BI, Qlik, SAP BI, ArcGIS

Tools & Others: Git, Notion, JIRA, ServiceNow, Microsoft Excel, DBeaver
